Harold-

Since I last got tapes for you almost all of the companies have started selling direct to Discount Stores to try for volume. Because of this - the wholesale prices I have come across aren't worth the shipping, etc. if purchased from a local discount store. I can get you cheap tape at about $1.25 ~~1 for $2.00 ft.~~ but it leaves some thing to be desired!!! Ollie

Almost everything is electronic
C.B. - Radio - TV - etc. has gone this
route. That's why I'm looking for a
new item !! Debbi
